I would like to take this opportunity to thank you for choosing ChemTec Pest Control to assist you in protecting your facilities, students, and staff. I encourage you to contact our office with any feedback which may assist us to better serve your needs.

Below is a list of materials used at your school property within the past 12 months which may be used as a part of your annual School IPM Act notification (C.13:1F-24). We have also attached Material Safety Data Sheets (MSDS) for each of the materials used.

Earlier in the year you should have received a list of our low-impact materials that may be used in your facility in the coming year. As always, should you have any questions or concerns on the above information, please contact myself or Gary Stamer at 201-843-0780.
