March 14, 2019

Dear Parents, Guardians and Members of the Wyckoff School Community,

The 2017-18 New Jersey School Performance Reports were recently released and are available on the New Jersey School Performance Reports webpage at www.njschooldata.org. These reports provide families, educators and the public a picture of overall school performance. The performance reports offer valuable information across many elements, including school-wide academic achievement and progress, demographics, school climate, chronic absenteeism, and college and career readiness.

The New Jersey Department of Education (NJDOE) encourages all members of the school community to use the reports to help start local conversations by asking questions such as: Are our students on track for success? Are all of our students making progress from last year? How did students perform on assessments? What areas is our school doing well in, and in what areas might we need improvement?"

Enhancements to the 2017-18 School Performance Reports

The 2017-18 reports include changes that respond to stakeholder feedback collected through a feedback survey, at parent round tables and workshops, and from stakeholder engagement throughout the year. These changes include:

- More informative, easier to understand one-page Summary Reports;
- Additional navigation tools and an improved search page within the reports;
- Emphasis on student growth with the growth section of the reports newly featured before the academic achievement section in the reports; and
- More information about Career and Technical Education (CTE) programs, dual enrollment, graduation pathways, progress toward English Language proficiency, staff demographics, and discipline.

Along with the full reports, one-page Summary Reports for each school and district are also available. The Summary Reports provide a high-level summary of how well a school or district is performing. A summary Report Guide is also available on the School Performance Reports webpage to explain the different data points on the Summary Reports.

The NJDOE continues to seek public input on ways to improve future reports. Please complete the feedback survey at www.surveymonkey.com or email reportcard@doe.nj.gov with feedback and suggestions.

Thank you,

Jeffrey Feifer, Ed.D.
Interim Superintendent of Schools
