Here's what the "Case for Chess as a Tool to
Develop Our Children's Minds" says. Chess can:

- * Foster critical, creative, and original thinking;
- * Raise IQ scores;
- * Enhance reading, memory, language, and mathematical abilities;

Given these benefits, the author concludes that chess is one of the most effective teaching tools to prepare children for a world increasingly swamped by information and even tougher decisions.

Class is 4:00pm–5:00pm

Each student is taught to
his/her individual level

Fee: \$85pp

(This is not a school sponsored Activity)
