

STEM comes to the Y with...

smashtech

We're always learning at the Wyckoff Family YMCA and are excited to partner with smashtech – a local tech education company comprised of New Jersey's top certified public school teachers. Smashtech's teachers know kids learn best through dynamic hands-on activities that promote critical thinking, problem-solving, and creativity and as experienced professional educators they know how to make learning exciting!

Start the school year off right by nurturing your child's interest in STEM!

NEW! Class Offering:

STEM Engineers for Gr. 3-5

Tuesdays from 4-5pm

9/12, 9/19, 9/26, 10/3, 10/10, 10/17, 10/24, (no 10/31), 11/7

Instructor: Jason Opremcak

Each hands-on session will feature a different type of engineering, including mechanical, architectural, structural, and aerospace design challenges. Kids will love learning about the "E" in STEM with smashtech! **Registration is open now online or in person!**

Introductory Package Pricing: No Y Membership needed!
