Here's what the "Case for Chess as a Tool to

Develop Our Children's Minds" says. Chess can:

- * Foster critical, creative, and original thinking;
- * Raise IQ scores;
- * Enhance reading, memory, language, and mathematical abilities;

Given these benefits, the author concludes that chess is one of the most effective teaching tools to prepare children for a world increasingly swamped by information and even tougher decisions.

Depending on the number of people registered, we can have one class from 4:00pm-5:00pm and we can add another class from 5:00pm-6:00pm. If only one class, the class will be from 4:00pm-5:00pm.

Fee: \$90 pp
